PROFILE

With a Master's degree in Industrial Design specializing in Human-Technology Relations, I have led diverse projects that honed my skills in product design and development. My strong connection to both design and coding allows me to create functional, high-performance solutions tailored to user needs. By bridging the gap between designers and developers, I ensure seamless alignment throughout the product development lifecycle.

PORTFOLIO

2024 – 2025

Product Design Engineer (Web Platform & App) · Figma

- Led the design of a gait analysis platform for runners and physiotherapists, combining user research with in-depth self-study of biomechanics, motion capture, and injury prevention to inform product strategy and business model development.
- Translated domain knowledge into intuitive workflows by designing wireframes, interactive prototypes, and high-fidelity mockups in Figma, supported by clear annotations, estimates, and documentation for client reviews and cross-functional teams.
- Continuously refined the design system through usability testing and stakeholder feedback to ensure consistent, accessible, and scalable user experiences through each release cycle.

WEARM.AI, ENSCHEDE, THE NETHERLANDS

2023 – 2024

Front-end Developer · Next.js, Tailwind, Headless UI, Node.js

- Integrated Adobe XD interface into a real estate web platform using Next.js and Laravel, translating designs into responsive frontend components (custom UI elements for form handling, including dynamic input validation).

MABRIK'IMMO, PARIS, FRANCE

2023 – 2024

Full-stack Developer · Vue.js, Laravel PHP, Vuetify

- Led development and management of widgets for a KPI-driven intelligent note-taking platform, contributing to cost estimation and client alignment. Delivered front-end components and new functionality through iterative releases and finalized handoffs.

BEEAPPs, PARIS, FRANCE

2020 – 2021

Lead Product Designer · Figma, React Native

- Redesigned Knaek's student discount app with a new visual identity and improved engagement, aligning with client goals and timeline estimates. Used UX research to guide interface ideation and delivered a high-fidelity interactive prototype for release.

KNAEK & DÉ CODEERBEDRIJF, AMSTERDAM, THE NETHERLANDS

2019 – 2024

Co-founder, Design Engineer · React Native, Next.js, Typescript

- Led user- and business-centered design research to define the PocketUp app concept and product strategy, contributing to roadmap planning and cost estimation.
- Designed and integrated prototypes with React Native (iOS/Android) and developed the back-office web platform in Next.js, delivering staged releases aligned with user testing.
- Created and maintained the global brand and marketing identity, ensuring consistent final deliverables and a cohesive visual presence across product and communication channels.

POCKETUP (FR), PARIS, FRANCE

EDUCATION

2018 – 2024

MSc Industrial Design Engineering Human Technology Relations

UNIVERSITY OF TWENTE, ENSCHEDE, THE NETHERLANDS
